Education and Training

2<sup>nd</sup> Grade Career Cluster

Created by Nicholas Miller

# Teacher

- Teachers teach students reading, writing, spelling, math, science and much more.
- They use games, music, art, videos, computers, and other tools to teach children basic skills.
- Most elementary school teachers teach several subjects to one class of children.
- Teachers lesson plan, organize classroom materials, grade tests/homework, meet with parents, and much more!

# Kindergarten and Elementary Teachers

Kindergarten and elementary school teachers prepare younger students for future schooling by teaching them basic subjects such as math and reading.

Kindergarten and elementary school teachers help students learn and apply important concepts. Many teachers use a hands-on approach, such as the use of props, to help students understand abstract concepts, solve problems, and develop critical thinking skills.

For example, they may show students how to do a science experiment and then have the students do the experiment. They may have students work together to learn how to collaborate to solve problems.

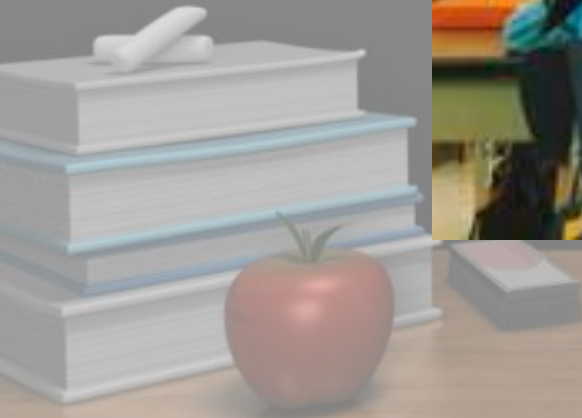

Kindergarten and elementary school teachers generally teach kindergarten through fourth or fifth grade. However, in some schools, elementary school teachers may teach sixth, seventh, and eighth grade. They most often teach students many subjects, such as reading, science, and social studies, which students learn throughout the day.

# Elementary Teacher

Salary=  
\$53,090 per/  
year

Education  
Level:  
Bachelor's  
Degree

# School Counselor

- Counselors help people learn to understand themselves better.
- They help people solve their problems and make important choices about their lives.
- Counselors help you solve problems, but their most important role is to listen carefully to the people who talk to them.
- School counselors help students learn about careers and how to get along with friends, teachers, or family members.

# School or Career Counselor

- Direct visitors to materials.
- Prepare books/materials for binding.
- Check books out and in for people.
- Organize books, magazines, videos, and CDs.
- Use a computer for research.
- In school libraries, they may teach students how to use the library and computers.

# School or Career Counselor

Salary=  
\$55,370  
per/ year  
\$25.77  
per/ hour

Education  
Level:

Master's  
Degree

# High School Teacher

High school teachers help prepare students for life after graduation. They teach academic lessons and various skills that students will need to attend college and to enter the job market.

High school teachers generally teach students from the 9th through 12th grades. They usually specialize in one subject area, such as math, science, or history. They may teach several different classes within that subject area. For example, a high school math teacher may teach courses in algebra, calculus, or geometry.

High school teachers may teach many grade levels throughout the day. Some high school teachers instruct special classes, such as art, music, and physical education.

# High School Teacher

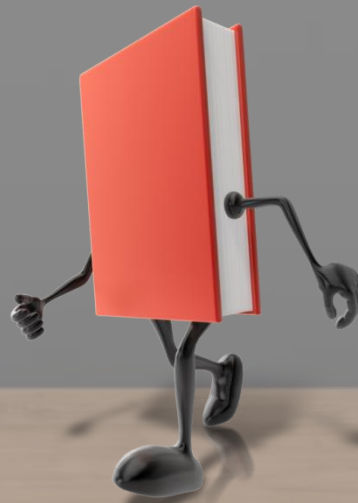

Salary= \$55,050  
per/ year

Education Level:  
Bachelor's  
Degree

# School Administrator: Principal

- Education administrators are in charge of schools.
- Principals manage teachers and other staff in the school.
- They visit classrooms, review teachers, meet with parents, and report to the School Board.
- They also prepare budgets, are active in the community, and are responsible for taking care of the school building.

# Elementary Teacher

Elementary, middle, and high school principals are responsible for managing all school operations. They manage daily school activities, coordinate curricula, and oversee teachers and other school staff to provide a safe and productive learning environment for students.

Salary= \$87,760 per/ year

Education Level:  
Master's Degree
