

System: _____

Functional Behavior Assessment Rubric

Component	Included	Missing	If missing, how might this be addressed through an addendum?
1. FBA includes Baseline Data tied directly to the target behaviors.			
2. FBA clearly defines the Target Behavior .			
3. Setting Events are identified and described in the FBA.			
4. The FBA has collected Input from several different sources: teacher, student, parent, etc.			
5. Antecedent Events are described and documented in the FBA. <i>What Antecedent Events seem to be triggering the behavior?</i>			
6. Consequences are documented in the FBA. <i>What Consequence is used most often with the target behavior?</i>			
7. The Function of the behavior is identified in the FBA.			
8. A Hypothesis regarding the target behavior is identified in the FBA.			

Notes:
